Hi Greg

Glad to discuss these with you. I am off tomorrow but if not in tonight but I can still look at if need be or will have Bob (and our new scientist Christine!) review them. Thanks for the heads up.

Lora

Lora, we should be getting well test results from four wells (and one spring) later today. I will need to let the homeowners know what the results show. Can I run these results by you later today or tomorrow morning for evaluation?

Thanks

Greg

Bonnie just called me. A reporter she was dealing with just asked a follow-up Q. Reporter wants to know what we sampled for?

We will have final results from the lab next week, but will need to have that data validated before we can release it. That will take several weeks. However if we see something of concern in the preliminary results we will take appropriate action.

Am I correct that we will have final results early next week? I sent Terri the email update that Greg sent regarding the response.

Hi LaRonda, Greg,

See inquiry below. What releasable info do we have? Thanks.

Hello Terri,

I am looking for information regarding the EPA testing four private water wells in the York, Pa. area following the Miller Chemical fire. Do you have that information you could provide for me.

Thank you!
